Application period now open for Jackson Wild Media Lab

Apr 03, 2019 Joe Kleiman Business, Events, News, North America, Technology & Media, World markets Comments Off

The Jackson Wild Media Lab is an immersive, cross-disciplinary science filmmaking workshop that brings scientists and media creators together to learn from leaders in the profession.

For nine days, Media Lab fellows will work side-by-side with instructors and industry-leading mentors to gain intensive hands-on filmmaking experience, learn the science of science communication, get a crash course using professional-grade tools and equipment and expand professional networks with peers and industry professionals.

This highly competitive program will accept up to 16 participants, covering all expenses associated with travel, food and lodging during the workshop and the 2019 Jackson Wild Summit (September 21-27, 2019).

Jackson Hole Media Lab is a collaboration with HHMI Tangled Bank Studios, a proud sponsor of Jackson Wild.
